As you may know, on October 1, 2017 First Nations Health Authority (FNHA) moved prescription drug coverage to British Columbia's PharmaCare from the federal government's Non-Insured Health Benefits (NIHB) program.

After the change, registration with a provincial agency may be necessary to ensure a seamless continuation of your prescription drug coverage. We suggest that you speak with your doctor to discuss if your health condition and medications means you should be registered with a provincial agency. Your doctor will know if and how to register you. Examples of agencies include:

- BC Cancer Agency
- BC Transplant
- BC Renal Agency

FNHA is committed to ensure that you receive the medications that you need; we are here to help. If you or your doctor have any questions please contact us, call our toll-free Health Benefits Support line at 1.855.550.5454 or email us at HealthBenefits@fnha.ca.
